

Morrison Products, Inc. Product Compliance Declarations

This document contains information on whether products manufactured by Morrison Products, Inc. is compliant with certain global regulation requirements. This document covers all products manufactured by Morrison Products.

Morrison Products provides this Product Compliance Declaration to cover the following regulations:

- EU REACH 1907/2006 (SVHC LIST)

- REACH Regulation (EC) 1907/2006 Annex XVII (Restrictions)

- EU RoHS Directive 2011/65/EU and (EU) 2015/863

- California Prop 65

- PFAs Identification

- TSCA Restricted Substances Declaration

- Persistent Organic Pollutants (POPs) Regulation (EU) 2019/1021

EU REACH DECLARATION

1. REACH REGULATION (EC) No 1907/2006 Article 33(1) - Communication on Substances of Very High Concern

Under REACH (EC No. 1907/2006), the EU chemicals regulation, Article 33 requires suppliers of articles to inform recipients if a Substance of Very High Concern (SVHC) is present above 0.1% weight by weight. This obligation applies at the **article level***, including complex products made of multiple components. SVHCs are listed on the Candidate List published and regularly updated by the European Chemicals Agency (ECHA). <http://echa.europa.eu/candidate-list-table>

2. Regulatory/Declarable Substance List (DSL) version

Insert date of regulatory version or latest update you are declaring against

REACH Candidate List Version Date*	02/2026
------------------------------------	---------

This declaration applies to all products sold or otherwise placed on the market by **Morrison Products, Inc.**

Products produced by Morrison Products **DO NOT contain** REACH SVHC above 0.1% w/w at the article level.

This declaration remains valid unless material changes to the product(s) occur, of which customers will be notified, or until the declaration is updated in response to changes in applicable regulation(s) and materials.

EU REACH ANNEX DECLARATION

1. REACH REGULATION (EC) No 1907/2006 Annex XVII (Restrictions)

Annex XVII of EU REACH establishes the substances and their corresponding use that are restricted. Restrictions may limit or ban the manufacture, placing on the market or use of a substance on its own, in a mixture or as part of articles and products.

2. Substance List Version

Enter the 08/2025 of the substance list version that this declaration applies to

Substance List Version	06/2025
------------------------	---------

This declaration applies to all products sold or otherwise placed on the market by **Morrison Products, Inc.**

Products produced by Morrison Products **DO NOT contain** substance(s) listed in Annex XVII of REACH as per the outlined restrictions(s)

This declaration remains valid unless material changes to the product(s) occur, of which customers will be notified, or until the declaration is updated in response to changes in applicable regulation(s) and materials.

EU RoHS DECLARATION

EU RoHS Directive 2011/65/EU and Amendment 2015/863/EU

Substance/Substance Group	Threshold
Cadmium/Cadmium Compounds (Cd)	0.01% at homogeneous material level
Lead/Lead Compounds (Pb)	0.1% at homogeneous material level
Hexavalent chromium and Compounds (Cr6+)	0.1% at homogeneous material level
Mercury/Mercury Compounds (Hg)	0.1% at homogeneous material level
Polybrominated biphenyls (PBB)	0.1% at homogeneous material level
Polybrominated diphenyl ethers (PBDE)	0.1% at homogeneous material level
Bis(2-ethylhexyl) phthalate (DEHP)	0.1% at homogeneous material level
Butyl benzyl phthalate (BBP)	0.1% at homogeneous material level
Dibutyl phthalate (DBP)	0.1% at homogeneous material level
Di-isobutyl phthalate (DIBP)	0.1% at homogeneous material level

To whom it may concern,

We hereby send you information related to Article 4(1) of the EU RoHS (Restriction of Hazardous Substances) Directive (2011/65/EU). This communication applies to all Products sold or otherwise placed on the market by **Morrison Products, Inc.** prior to the signature date shown below

Products produced by **Morrison Products, Inc.** **do not contain** any declarable or prohibited substances above the threshold or reporting limits as defined by the EU Directive.

Morrison Products, Inc. certifies that none of Morrison Product's products contain any of the listed substances in the above table at a concentration over the given threshold limit by weight at the homogeneous material level (regardless of exemption status).

CALIFORNIA PROP 65 DECLARATION

Morrison Products takes seriously issues relating to product safety. To that end, Morrison Products recognizes the importance of product labeling and warning issues, including compliance with laws and regulations relating to same. In California, the Safe Drinking Water & Toxic Enforcement Act of 1986, commonly known as Proposition 65 (“Proposition 65”), establishes a list of chemicals which the State of California’s risk assessment process has determined present a risk of cancer, birth defects or other reproductive harm. For reference, the Proposition 65 chemical list can be found at:

http://www.oehha.ca.gov/prop65/prop65_list/files/P65single01032014.pdf.

Proposition 65 requires that certain warnings be provided in connection with the sale, or advertising for sale, of consumer products which may result in exposure to one or more of the chemicals listed in Proposition 65.

This Notice is being provided to inform you that all products and items produced by Morrison Products contain nickel and hexavalent chromium, which are chemicals that are listed in Proposition 65. Because the products may result in exposure to these chemicals, Proposition 65 requires that the specific warnings described in this Notice are to be provided in connection with the sale, or advertisement for sale, of any the products in California.

Requirements for On-Product Warnings

Proposition 65 requires that warning symbols and statements be placed directly on the packaging for the products. The warnings may be provided in *either* the “long form” or the “short form” described below.

Long Form Warning Requirements

Both of the following must be placed on the product packaging:

- (1) A symbol consisting of a black exclamation point in a yellow equilateral triangle with a bold black outline. The symbol shall be placed to the left of the text of the warning statement described below, in a size no smaller than the height of the word “WARNING;” and

- (2) A warning statement which reads exactly as follows:

WARNING: This product can expose you to chemicals including Nickel and Hexavalent Chromium, which are known to the State of California to cause cancer. Hexavalent Chromium is additionally known to the State of California to cause birth defects or other reproductive harm. For more information go to <http://www.p65warnings.ca.gov/>.

Short Form Warning Requirements

Both of the following must be placed on the product packaging:

- (1) A symbol consisting of a black exclamation point in a yellow equilateral triangle with a bold black outline. The symbol shall be placed to the left of the text of the warning statement described below, in a size no smaller than the height of the word “WARNING;” and
- (2) A warning statement which reads exactly as follows:

WARNING: Cancer and Reproductive Harm - - <http://www.p65warnings.ca.gov/>

Requirements for Internet, Catalog, and Other Print Advertisements

Proposition 65 also applies to consumer products that are sold, or advertised for sale, on the internet, in catalogs, or in other print advertisements. Proposition 65 provides that the warnings provided on a website or in a catalog or print advertisement may consist of the same content as an on-product warning that complies with Proposition 65. Thus, either the “long form” or “short form” on-product warnings described above must be included on any website, catalog, or print advertisement that offers for sale any products which are supplied by Morrison Products.

Please be advised that as the retail seller it is your responsible for placing either the long form or short form warnings described in this Notice on any products that is obtained from Morrison Products for sale in California. The retail seller is also responsible for placing either the long form or short form warnings described in this Notice on any website, catalog, or print advertisement which offers for sale any products which are supplied by Morrison Products.

PFAS DECLARATION

Per- and polyfluoroalkyl substances (PFAS), sometimes called "forever chemicals," is a group of thousands of substances widely used in many industries. Due to growing awareness of health and environmental concerns, PFAS are facing increasing scrutiny worldwide. In-force and proposed measures set restrictions or requirements on PFAS use in some jurisdictions, and due diligence may be necessary to meet legal obligations, ESG commitments, and/or business requirements.

This communication applies to all Products sold or otherwise placed on the market by **Morrison Products, Inc.** prior to the signature date shown below

Morrison Product's products **do not contain PFAS** chemicals.

TSCA DECLARATION

1. Toxic Substances Control Act (TSCA)

The Toxic Substances Control Act (TSCA) is a US federal chemicals management regulation. Multiple sections of TSCA outline substances and substance groups that are restricted and/or reportable based on their properties, posing unreasonable risk to humans and the environment, as identified by the EPA. Some of the chemicals with restrictions can be used in certain scopes or with applicable exemptions. This declaration indicates whether a TSCA restricted substance is contained or not contained, without consideration of thresholds. The Declarable Substance List is available for download from the Assent platform.

2. Substance List Version

Enter the MM/YYYY of the substance list version that this declaration applies to

Substance List Version	12/2024
------------------------	---------

This declaration applies to all products sold or otherwise placed on the market by **Morrison Products, Inc.**

Products produced by Morrison Products **DO NOT contain** TSCA restricted substances per the outlined restrictions(s)

This declaration remains valid unless material changes to the product(s) occur, of which customers will be notified, or until the declaration is updated in response to changes in applicable regulation(s) and materials.

POPS DECLARATION

The European Union Persistent Organic Pollutants (EU POPs) Regulation is a chemical management regulation aimed at protecting human health and the environment. Under EU POPs, certain substances are classified as persistent organic pollutants and are either restricted or prohibited within the EU.

This declaration provides information about substances identified by Regulation (EU) 2019/1021, and applies to all products sold or otherwise placed on the market by **Morrison Products, Inc.** before the signature date shown below

Products from **Morrison Product's do not contains** substances from the EU Persistent Organic Pollutants declarable substance list.

Limitations

The information provided herein is accurate to the best of Morrison Products' knowledge. This document covers all products manufactured by Morrison Products.

The information provided is based upon the data obtained from ongoing due diligence concerning goods and materials provided by third party suppliers. Morrison Products provides this information as-is and makes no express or implied warranties. Morrison Products reserves the right to update and modify this communication, as it deems necessary or appropriate.

Morrison Products supplies fans & blowers to customers in the European Union (EU) market that are intended for incorporation into a final assembled product such as small package, rooftop, and air handler units. Morrison Products is not the manufacturer of the final assembled product in the EU market. The responsibility for placing the finished product on the EU market, and for compliance with applicable EU legislation such as REACH, CLP, RoHS and/or POPs, rests with the EU-based customer or importer, as applicable.

Items supplied by Morrison Products are considered "articles" within the scope of REACH and CLP. Because RoHS applies to electric & electronic equipment (EEE) and POPs applies to biocidal products and/or treated articles, items supplied by Morrison Products do not fall into these categories as a standalone product.

The Customer should independently assess any requirements it might have under REACH, CLP, RoHS, and/or BPR when supplying products supplied by Morrison Products to the EU, including products containing Morrison Products' products as parts or components.
